Head over to Commitment to Science under “Responsibility”

The link to the applications can be found under “CST Science Scholarships”

CST Science Scholarships

A highly educated workforce fuels the success of our scientific footprint. Thus we rely on public and private schools to inspire the next generation of scientists. One way we can make a difference is to help relieve some of the debt that students take on during their first four years of college. We hope to provide guidance to students in their junior year of high school in choosing a path that could help nurture their interest in science, while at the same time providing a sense of financial security for their college years. Five public high schools in Boston's North Shore have been selected to participate in the scholarship program. Eligibility requirements, applications, and more information can be found on our [CST Science Scholarship page](#).

Both applications are located at the bottom of the page under “Application Materials & Deadlines”

Application Materials & Deadlines

1. [CST Science Scholarship Student Application Form*](#) (to be completed by the student). Deadline: March 1
2. [Science Teacher Evaluation Form*](#) (to be completed by the teacher). Deadline: March 1
